**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a average user concern about privacy and monopoly in the world of internet. I come from a small country that has had high speed internet for a long time and I am so surprised by the lack of speed internet in US. I think the lack of competition is to be blamed by the non competitiveness of internet services. It's also concerning to see these giant companies buying everything and limiting choices to regular consumers.

Please do not give into corporate pressure. I am very happy with my local internet provider and I look forward to having broad band internet supplied by them. If this passes, I will need to use the services of a big company, and I am very unhappy by their limited options and blackmail type of business.

Thank you!
